Important Questions	Answers	Why This Matters:
What is the overall deductible?	Preferred: \$1,500 Individual / \$3,000 Family Non-Preferred: \$4,000 Individual / \$8,000 Family Per calendar year. Does not apply to copays, prescription drugs, and services listed below as "No Charge".	You must pay all the costs up to the deductible amount before this plan begins to pay for covered services you use. Check your policy or plan document to see when the deductible starts over (usually, but not always, January 1st). See the Common Medical Events chart for how much you pay for covered services after you meet the deductible .
Are there other deductibles for specific services?	No. There are no other deductibles .	You don't have to meet deductibles for specific services, but see the Common Medical Events chart for other costs for services this plan covers.
Is there an out-of-pocket limit on my expenses?	Preferred: \$4,000 Individual / \$8,000 Family Non-Preferred: \$8,000 Individual / \$16,000 Family	The out-of-pocket limit is the most you could pay during a coverage period (usually one year) for your share of the cost of covered services. This limit helps you plan for health care expenses.
What is not included in the out-of-pocket limit?	Premium, prescription drugs, copays, balance-billed charges, health care this plan doesn't cover, and penalties for failure to obtain Pre-Authorization for services.	Even though you pay these expenses, they don't count toward the out-of-pocket limit .
Is there an overall annual limit on what the plan pays?	No.	The Common Medical Events chart describes any limits on what the plan will pay for specific covered services, such as office visits.
Does this plan use preferred providers?	Yes, this plan uses preferred providers . If you use a non-preferred provider your cost may be more. For a list of preferred providers , see www.myuhc.com or call 1-800-996-0271 for a list of preferred providers .	If you use a preferred doctor or other health care provider , this plan will pay some or all of the costs of covered services. Be aware, your preferred doctor or hospital may use a non-preferred provider for some services. Plans use the term preferred, preferred , or participating for preferred providers . See the Common Medical Events chart for how this plan pays different kinds of providers .
Do I need a referral to see a specialist?	No. You don't need a referral to see a specialist .	You can see the specialist you choose without permission from this plan.
Are there services this plan doesn't cover?	Yes.	Some of the services this plan doesn't cover are listed under Services Your Plan Does NOT Cover. See your policy or plan document for additional information about excluded services .

Questions: Call 1-800-996-0271 or visit us at www.myuhc.com. If you aren't clear about any of the terms used in this form, see the Glossary. You can view the Glossary at www.dol.gov/ebsa/healthreform or call the phone number above to request a copy. **This is only a summary.**

It in no way modifies your benefits as described in your plan documents. Please refer to your plan documents provided by your employer for complete terms of this plan.

- **Co-payments (copays)** are fixed dollar amounts (for example, \$15) you pay for covered health care, usually when you receive the service.
- **Co-insurance (co-ins)** is *your* share of the costs of a covered service, calculated as a percent of the **allowed amount** for the service. For example, if the plan's **allowed amount** for an overnight hospital stay is \$1,000, your **co-insurance** payment of 20% would be \$200. This may change if you haven't met your **deductible**.
- The amount the plan pays for covered services is based on the **allowed amount**. If a non-preferred **provider** charges more than the **allowed amount**, you may have to pay the difference. For example, if a non-preferred hospital charges \$1,500 for an overnight stay and the **allowed amount** is \$1,000, you may have to pay the \$500 difference. (This is called **balance billing**.)
- This plan may encourage you to use preferred **providers** by charging you lower **deductibles, co-payments and co-insurance** amounts.

About these Coverage Examples:

These examples show how this plan might cover medical care in given situations. Use these examples to see, in general, how much financial protection a sample patient might get if they are covered under different plans.

This is not a cost estimator.

Don't use these examples to estimate your actual costs under this plan. The actual care you receive will be different from these examples, and the cost of that care will also be different.

See the next page for important information about these examples.

Questions and answers about Coverage Examples:

<p>What are some of the assumptions behind the Coverage Examples?</p> <ul style="list-style-type: none"> • Costs don't include premiums. • Sample care costs are based on national averages supplied to the U.S. Department of Health and Human Services, and aren't specific to a particular geographic area or health plan. • The patient's condition was not an excluded or preexisting condition. • All services and treatments started and ended in the same coverage period. • There are no other medical expenses for any member covered under this plan. • Out-of-pocket expenses are based only on treating the condition in the example. • The patient received all care from in-preferred providers. If the patient had received care from out-of-preferred providers, costs would have been higher. • If other than individual coverage, the Patient Pays amount may be more. 	<p>What does a Coverage Example show?</p> <p>For each treatment situation, the Coverage Example helps you see how deductibles, co-payments, and co-insurance can add up. It also helps you see what expenses might be left up to you to pay because the service or treatment isn't covered or payment is limited.</p>	<p>Can I use Coverage Examples to compare plans?</p> <p>✓ Yes. When you look at the Summary of Benefits and Coverage for other plans, you'll find the same Coverage Examples. When you compare plans, check the "Patient Pays" box in each example. The smaller that number, the more coverage the plan provides.</p>
	<p>Does the Coverage Example predict my own care needs?</p> <p>✗ No. Treatments shown are just examples. The care you would receive for this condition could be different based on your doctor's advice, your age, how serious your condition is, and many other factors.</p>	<p>Are there other costs I should consider when comparing plans?</p> <p>✓ Yes. An important cost is the premium you pay. Generally, the lower your premium, the more you'll pay in out-of-pocket costs, such as co-payments, deductibles, and co-insurance. You should also consider contributions to accounts such as health savings accounts (HSAs), flexible spending arrangements (FSAs) or health reimbursement accounts (HRAs) that help you pay out-of-pocket expenses.</p>
	<p>Does the Coverage Example predict my future expenses?</p> <p>✗ No. Coverage Examples are not cost estimators. You can't use the examples to estimate costs for an actual condition. They are for comparative purposes only. Your own costs will be different depending on the care you receive, the prices your providers charge, and the reimbursement your health plan allows.</p>
